

NCS Log Report Instructions

Volunteer Net Reporters Needed: (updated on 09/26/2020) Check [here](#) for new Updates!

Net Reporters are needed to help keep track of certain nets (listed below) by collecting data for ARES Team to send it over to ARRL. It's a great way to practice and sharpen your skills in case your first responder in an emergency.

Kona Bob (AH6GT), owner of [40meter.net](#) we are now able to log a "VHF/UHF Net", "CERT Net" and "HF Net" by entering it in to his database, here are the [instructions](#). (mahalo Kona Bob your da best)

Back-up Net Reporters can click on the "View VHF/UHF Logs" or "View HF Logs" to double check if the net was logged in and if there are any mistakes. You can contact Joe KH6FHI@arrl.net for corrections. If you do not use [40meter.net](#) to log, send your manual log over to us down below.

Remember to log down the Net Name, Date of Net, Start and End Times plus Call Signs that had checked-in to the net.

Send a [NCS Log Report](#) to Darrell KH6RDO dhaenter@gmail.com and Cc your back-up Net Reporter so they know it was sent in (if you have one). If not, you can Cc it to Bev KH7LM bevgable@gmail.com.

Your welcome to use Winlink if you prefer: Click "Message" tab select "New Message" then "Templates General Forms" double click on "information.txt" and fill it in as a NCS Log. If you don't have Winlink installed on your computer, you can use this [Winlink NCS Log Report Step by Step Guide](#) using Winlink Telnet (internet). Send your Net Report to KH6RDO@winlink.org and Cc to your back-up Net Reporter call sign, if none you can Cc KH7LM@winlink.org.

Mahalo to all our Net Reporters for volunteering their time by monitoring and logging down East Hawaii Nets!

Net Reporters
