

The image shows two screenshots of Winlink forms. The left screenshot is the 'Express Check In ETO-FIELD DAY Check-in' form. It includes a 'Setup' button, a note about initial check-in, a date/time field, a 'Select Status' dropdown, and various radio button options for Band, Mode, and Send To. It also has fields for Location, Decimal GPS Coordinates, and a large text area for Comments. The right screenshot is the 'General Message (ICS 213)' form. It includes a 'Setup' button, a 'Load ICS213 INITIAL Data' button, and a 'Form Instructions' link. It has fields for Incident Name, To (Name/Position), From (Name/Position), Subject, Date, Time, and Message. It also has an 'Approved by' field and a 'Position / Title' field. At the bottom, there are 'Save ICS213 INITIAL Data', 'Submit', and 'Reset Form' buttons.

Winlink Field Day Message Instructions

Message #1: (to get on the [Map](#))

WARNING: The message has to be sent via Vara HF or Vara FM. Only for this exercise Telnet is not allowed.

Open Winlink & Select: "Message", "New Message" then "Select Template", open "Standard Templates" click (+) and scroll down to "General Forms", and open this form "Winlink Check In.txt". Select Setup and add title "ETO-FIELD DAY Check-in".
